My darling Ann -
Florence - May 27. 1871
What a delight it is to receive your few lines telling me
about your Latin! It makes me very happy indeed. I
had just had a letter from brother Victor saying how
proud he was of you, and how he hoped you would
work hard on your studies and be a wonder when you
grow up. I shall not be home as soon as I expected
and I have asked Mrs. Rollins to see Fran Director and
make the same weekly arrangement that has existed
for the last two months. If she cannot do so, then you
must go to Franklin Roberts on the first of June and
attend school as a day-scholar. But I think Fran Director
will keep you until I return. Then I must see you
for or cheer them in leaving Dresden. Take this card
over for Mrs. Rollins to read - for she may not receive or un-
derstand my letter. My regards to Fran Director. I hope you
have comfortable clothes to wear in Saxony -
Wished.
